[English translation:]

Do you also remember?

The moment we first met?

We were so shy and awkward back then

Now that I look back

We've come this far in just a blink of an eye

We walked it together, alongside each other

At times, I fell and shed tears

We comforted each other, with a pat on the back

Gazing at one another with tears in our eyes

Calling out each other's names

Starting on June 13

To the us of the present, here and now

Even if you're not here

At the same place, always

Don't have to worry now

Letting go of your hand for a moment

But it's only a small comma in our story

Just call my name out loud

Until the days tinge purple once again

'Cause anytime you want me (I'll be)

Right here where you call me (I'll be)

I could never let you go

Never let you go

Whenever you need me (I'll be)

If you believe me (I'll be)

I'll never let you go

Never let you go

Whenever it rains, I'll remember the times I sang in the rain

Whenever it snows, I'll cherish how you smiled for me in the snow

On the spring day, we meet again, I'll tell you everything I couldn't before

My love, my babe, forever by your side

Seven equals one, right, our hearts still beat as one

Close your eyes for just a second, I'll be standing in front of you, oh

Don't have to worry now

Letting go of your hand for a moment

But it's only a small comma in our story

Just call my name out loud
Until the days tinge purple once again

'Cause anytime you want me (I'll be)
Right here where you call me (I'll be)
I could never let you go
Never let you go
Whenever you need me (I'll be)
If you believe me (I'll be)
I'll never let you go
Never let you go

When I knock on your door with our hearts united as one
Open it for me with your bright smile
When the paused time begins to run again
Baby, I'll come back to you

Let's sing it together, this song
For the day, we'll reunite again
I could never let you go (Never let you go)
Never let you go (Never let you go)
Let's sing it even louder, this song
So we can become one again
I will never let you go (I will never let you go; Oh-oh)
Never let you go (Oh)

Let's sing it together, this song (Yeah)
For the day, we'll reunite again (Yeah)
I could never let you go (I could never let you go)
Never let you go (Never let you go)
Let's sing it even louder, this song (Yeah)
So we can become one again (Yeah)
I will never let you go (I will never let you go)
Never let you go (Never let you go)
