[Styles P.:]

Why dont you try to Karaoke this verse

of them chirp
ten ways to calm down and dont none of them work
I go bezerk with a gun in my shirt
blow a hundred of earth, pastor said dont come to the church
Im a problem when it come to the work
listen if its a race to split ya face
I'll be comin in first
I show up niggas wonder who Im comin to murk
got my broad in the corner gun under the skirt
and we lookin at ya jewels, tryin to wonder the worth
gettin slayed at night, take away the ice
cause its sorta like sprite, how we obey our thirst
shoulda known you seen both of the R's
ghost come with the toast, Jin came with the Chinese stars
you can catch me downtown at a Chinese bar
dai-ma like a motherfucker high off la' wha..

Im so dope and my flow so tight
I could turn Karaoke to Open Mic Night
