

# JJ72, Nameless

Stumbled round, you I found  
Adored your glory, you're my story  
Then you let me down, let down  
You know we're the same  
Once I frowned, then I found  
The one I love, as if from above  
You smile at me, I smile at you  
We were the same  
You are not an enemy  
You are not an enemy  
Gentle as the sky  
Please don't ask me why  
You are not an enemy  
You are not an enemy  
Gentle as the sky  
Please don't ask me why  
I cry
