

Joan Jett And The Blackhearts, Fantasy

(Joan Jett/Kenny Laguna)

I've been friends with you for many days
And I know you in so many ways
So lets go for a drink to ensure I can be forever

But what do you think about when its dark out
After we say goodnight
I wonder

Oooooo your my fantasy
oooooo you and me it could be
Your my fantasy

I know there's something on your mind
And its bugged us for a long long time
Your miles off my case you have something to say but you shy away
hey baby

What is on your mind in the daytime
Cause I'm hoping to see you tonight
And I'm wondering

Oooooo your my fantasy
oooooo you and me it could be
Your my fantasy

Everytime I nearly get to be closer
Why do I feel this strange inclination
Is it just my imagination

Don't tell me I'm dreaming

I wanna say what I'm thinking about
I'm never sure what I'll find
But I wonder

Oooooo your my fantasy
oooooo you and me it could be
Your my fantasy

I have you yes I do
Your my fantasy
