

# Jody Miller, Take Time To Know Him

I found somebody I thought I truly loved he was everything I'd ever been dreaming of  
But he was bad I didn't know it he had a smile but never did show it  
All I knew is what I could see and I knew I wanted him for me  
I took him on to mama I wanted to be his bride  
Mama looked at us both and then she called me to her side  
Said take time to know him it's not an overnight thing  
You better take time to know him please don't rush into this thing

I didn't listen to mama I went straight to the church  
I just couldn't wait to be at home when my man got up work  
The preacher was there I was gonna be a bride  
He looked at us both and then he called me to his side  
Said take time to know him...

Well it looked like everything was gonna turn out all right  
And then I caught him out one night  
There was another woman kissin' on my man  
Now I know what mama meant when she's took me by the hand  
She said take time to know him...  
Take time to know him...
