

# John de Sohn, Long Time (feat. Andreas Moe)

We could start the universe with our heartbeats tonight  
Don't let go, we're moving up in the speed of light  
I say you, I've been waiting for a long time  
Oh for you, feels like I've waited for a lifetime  
We could start the universe with our heartbeats tonight  
Don't let go, we're moving up in the speed of light  
I say you, I've been waiting for a long time  
Oh for you, feels like I've waited for a lifetime  
I say you,  
Oh for you

We could start the universe with our heartbeats tonight  
Don't let go, we're moving up in the speed of light  
I say you, I've been waiting for a long time  
Oh for you, feels like I've waited for a lifetime  
We could start the universe with our heartbeats tonight  
Don't let go, we're moving up in the speed of light  
I say you, I've been waiting for a long time  
Oh for you, feels like I've waited for a lifetime
