

# John Denver, I Can

This song appears on two albums, and was first released on the One World Album. It has also been

Funny thing about this little heart of mine  
All the ways that it can say  
(I love you)  
Longer than forever  
Till the end of time  
No matter baby come what may  
(I love you)  
Look at me now sittin' all by myself  
Face another sleepless night all alone  
All I look forward to is lying here living this song

I can't escape thinking every day about you  
Can't escape wishing dear you were still mine  
Can't escape thinking maybe I still love you  
Can't escape caring for you all of the time

Listen to the music on the radio  
Top forty hits of yesterday  
(I love you)  
Leavin' on a Jet Plane  
Blowin' in the Wind  
The Silly Games that People Play  
(I love you)  
Each of them carries your memory still  
I can still see that look in your eyes  
The one that preceded your kisses and followed your sighs

I can't escape thinking every day about you  
Can't escape wishing dear you were still mine  
Can't escape thinking maybe I still love you  
Can't escape caring for you all of the time

Every rain in the morning reminds me of you  
Every night when it's cold outside  
Every time that I ache inside  
(I love you)  
(I love you)

Sometimes I wish it was ten years ago  
We were starting all over again  
Yet the way that I feel is much more than just remembering when

I can't escape thinking every day about you  
Can't escape wishing dear you were still mine  
Can't escape thinking maybe I still love you  
Can't escape caring for you all of the time

All of the time  
All of the time

Words and music by John Denver
