

# John Entwistle, When The Sun Comes Up

I've sat and waited for years  
Looking for signs to appear-to me  
But all I'd see  
Was clouded in mystery  
And now that I've turned the page  
I've broken out of my cage-of fear  
That kept me here  
A prisoner for so many years

Chorus:

When the sun comes up  
The moon goes down  
You can find your way back home  
If you wait 'til the sun comes round  
Now that the tables have turned  
I'm taking all that I've learned-with me  
Now I can see  
The truth is what's burning free

Repeat Chorus:

Bridge/Solo

Now I can stand on my own  
No fear of being alone-again  
The darkness ends  
The moment I see my old friend  
Repeat Chorus:
