

John Legend, Bigger Love

I don't wanna think about nothing
just watching you dancing
feel like the beginning of something
in the end /2x

all I wanna do is just fall in
I don't wanna think about you
everybody got so much to say
every time we pushing away
every a now reason to stay
cause we got big love

won't ever give it up
we got a one-way ticket love
we ain't going no place but up
nothing can sto this
no one can top us
we got a bigger love

I don't wanna think about noyhing
the world feels like it's crumbling
every anyother new something
but in the end /2x

can't nobody do us in
I just wanna think about loving
cause we got big love

won't ever give it up
we got a one-way ticket love
we ain't going no place but up
nothing can sto this
no one can top us
