John Mayall, Walking On Sunset - John Mayall

Walking on sunset

Watching all the people like the waves along the shore They hang around he whiskey and every open store

Chorus I'm walking on sunset And I'll never reach the end I'm walking on sunset Everything is like a friend

All the pretty women, never seen a better crop Music all around, the flashing lights will never stop

Standing at the corner watching every kind of car Friendly people come and say they wanna see your star

The cops were in the car but they never bothered me A new magic world - I never felt so free
