

# John Mayer, Over And Over

Over and Over -- John Mayer

Baby, you could jump a hundred times  
There's just no way that you'll ever fall out of my graces, out of my graces  
Let's say for a second that you ever do  
And it gets hard to look at you  
Time will erase it, time will erase it

You can use me up, kick me down  
As much as you like, we're good on time  
Cause, guess who desperately wants you, over and over□  
Over and over  
Guess who desperately wants you, over and over  
Over and over

You can cut your hair just to grow it back  
Or dye it till the sink turns black  
I'll recognize you, I'll recognize you

When you lose your way and I'm doing fine  
I'll even lose my place in line  
I'll help you find it, I'll help you find it

Cause, guess who desperately wants you, over and over  
Over and over  
Guess who desperately wants you, over and over  
Over and over

Fadeout  
Cry at the hands of you before I laughed at something new  
Cause over and over, I'm breaking my heart just to save your own
