

John Porter, Honey Trap

I've been asking everywhere
I haven't seen my honey trap
I know she's a really wild one
I want my honey trap back
She's a really my breaker
Really heart breaker
Crazier then you and me
I've been asking everywhere
I just got have it back

She doesn't care I'm flout
Everywhere where the pile blue eyes .. upstairs
She's a moonsister in the sky
And she's not afraid of fight
She's been fighting almost all of the ...
But I want her to come back to me
I'm on my knees please

I've been walking on streets in pain
Oh, where's my honey trap?
She steals my money, drinks my whiskey
But I want my honey trap back
She's chews my world
Spits her mouths
Make sound like she never hurt
But I need my honey trap back
Do everything together back

She doesn't care I'm flout
Everywhere where the pile blue eyes .. upstairs
She's a moonsister in the sky
And she's not afraid of fight
She's been fighting almost all of the ...
But I want her to come back to me
I'm on my knees please

I've been asking everywhere
I haven't seen my honey trap
She stole me life
Broke me down
But I want my honey trap back
She's a really bone-breaker
And undertaken
I need my honey trap back
But I need my honey trap back
Do everything together back
Honey Trap
A honey Trap
