

# Johnny Cash, After All

We have drifted apart  
Broken hearts, me and you  
After all of this time  
I'm satisfied inside to know

This memory that I had  
It's more good than bad  
You taught me how to sing  
And bring you love

After all this time  
You're still a friend of mine  
So I believe in someone  
After all

Our love didn't last long  
What went wrong?  
Who's to say?

If you never been by  
How then could I  
Begin to say

After all this time  
And you're still a friend of mine  
So I believe in someone  
After all

After all this time  
You're still a friend of mine  
So I believe in someone  
After all
