

Jojo, Disaster

I'm trying not to pretend that it won't happen again and again like that
I never thought it would end ? cause you got up in my head, in my head like that
And made me happy , baby, love is crazy, so amazing
But it's changing , rearranging ? I don't think I can take anymore

Cause the walls burned up and our love fell down
And it turned into whatever ? Now we're saying never
Feel the fire cause it's all around and it's burning for forever and always
We gotta let it go the other way and look for another day cause it ain't the same, my baby
Watch it all falling to the ground , no happy ever after , just disaster
Oh, w-whoa

I didn't want it this way
I only wanted to say I loved you right
But now you're walking away
And leaving me here to stay
So foolish of me to wait for you
To realize ? All the ? Things I ? Gave you
Made you ? Changed you ? Your dreams came true ? When I met you
Now forget you ? Don't want anymore

Cause the walls burned up and our love fell down
And it turned into whatever ? Now we're saying never
Feel the fire cause it's all around and it's burning for forever and always
We gotta let it go the other way and look for another day cause it ain't the same, my baby
Watch it all falling to the ground ? No happy ever after ? Just disaster

You shot the bullet ? You shot the bullet that killed me
Not feeling my heartbeat ? And now we're dying
I've been through it ? I-I been through all the agony
And now my eyes are drying ? Trying ? No more crying ? Lying's just a game
So disaster strikes and I'm alright cause my love's on his way
Yeah, ye-yeah

Burning up forever and always, always
Ye-ye-yeah

Cause the walls burned up and our love fell down
And it turned into whatever ? Now we're saying never
Feel the fire cause it's all around and it's burning for forever and always
We gotta let it go the other way and look for another day cause it ain't the same, my baby
Watch it all falling to the ground ? No happy ever after ? Just disaster

Cause the walls burned up and our love fell down
And it turned into whatever ? Now we're saying never
Feel the fire cause it's all around and it's burning for forever and always
We gotta let it go the other way and look for another day cause it ain't the same, my baby
Watch it all falling to the ground ? No happy ever after ? Just disaster

Just disaster, whoa
Burning up forever and always, always
Yeah, ye-ye-yeah
