

# Jon B., Up All Night

Featuring Gina Thompson

If You Only Knew  
I see you're not afraid  
To show me your love girl  
I hoped this could be the day  
That we get together again  
Love, I'm so amazed  
That you gave me the "okay"  
To do it again (for us to do it again)

Lets go back to the night  
We made love to the sun rise  
It felt like our first time  
We stayed up all night  
We stayed up all night

If you could read my mind  
And see where my head's at  
Surely you would know  
How I feel (how I feel)  
I could feel like this forever  
Nobody loved me like you did (baby)

Lets go back to the night  
We made love to the sun rise  
It felt like our first time  
We stayed up all night  
We stayed up all night

Waking up next to you girl  
Girl you're sweeter in the morning time  
Feeling the butterflies my eyes  
Filled up with tears when we intertwined  
There's so much I feel with you  
When you're body's laying next to mine  
Touching me softly  
Melting into me

Let's just do it again!!

Lets go back to the night  
We made love to the sun rise  
It felt like our first time  
We stayed up all night  
We stayed up all night
