

# Jon Bon Jovi, All Talk, No Action

First time I saw you girl,  
I knew that it wouldn't be long  
I tried holding back my feelings  
But you came on so strong  
No one told me about her  
But I know they all knew  
That I know all about the girls  
That do the things you do

Cause you're all talk, no action  
You're all talk, no action

You're playing those games with me baby,  
But one of us has got to win  
Someday all the boys are gonna find out  
That you won't even play it with them  
You're running out of numbers baby  
You won't say no, you just say maybe  
One of these days you're gonna get  
What's coming to you

Cause you're all talk, no action  
All talk, no action  
You're all talk, no action  
You better stop this fooling around  
You're all talk no action  
You turn it up to cool me down, cool me down, cool me down

Sticks and stones will break my bones  
But their names could never hurt me  
Cause I ain't afraid of you running away  
If you love me tonight then desert me

Cause you're all talk, and no action  
You're all talk, but no action  
You're all talk, but no action  
You're all talk  
You're all talk, no action  
You're all talk, no action  
All talk, no action  
All talk, no action
