

# Jon Bon Jovi, Roulette

Bet the black, comes in red  
Crimes of passion rule my head  
I need you, you want him, dressed to kill  
We live in sin  
I know the game you play, I know it well  
You just keep on playin' when all the bets are down

Chorus:

Roulette - Goin' round in a spin  
Caught up in a game you can't win  
Roulette - you're just a fantasy  
Its everything that you want it to be  
Play the numbers one by one  
Fire the shot and the damage is done  
Restless lovers pay the price  
Cheating hearts don't think twice  
When you make the rules  
No one can slow you down  
You just keep 'em waiting  
When you're on the prowl

Chorus

Backdoor runner got away this time  
Leaves her mark at the scene of the crime  
Nothing matters no faces no names  
You're just a number, its all the same  
You just love to play the game  
I know the game you play, I know it well  
You just keep on playin' when all the bets are down  
Chorus
