

Jonas Brothers, Keep It Real

Dream of a day
When the songs that you play
Are blasting through the speakers of your car
And it comes in a flash
And you hear
From the crowd
Screaming at your name for the encore
Living life, life in the fast lane
Not that bad, know we cant complain
Whose to say that we wont keep it real
Hold on tight, dont you dare let it go
Nows the time let the whole world know
You can shine bright, but still keep it real
Who can know
Thatd you be on the road
Selling out the tickets to your show
When your home
and your still the one you were
before your left to go on tour
(Whoo)
Living life, life in the fast lane
Not that bad, know we cant complain
Yeah
Whose to say that we wont keep it real
Hold on tight, dont you dare let it go
Nows the time let the whole world know
You can shine bright, but still keep it real
Did you ever think your dreams
Would become a reality
Whoa - oh
All you did was just believe
Living life, life in the fast lane
Not that bad, know we cant complain
Whose to say that we wont keep it real
Living life, life in the fast lane
Not that bad, know we cant complain
Whose to say that we wont keep it real
Hold on tight, dont you dare let it go
Nows the time let the whole world know
You can shine bright, but still keep it real
