

# Jonas Brothers, Strong Enough ft. Bailey Zimmerman

Been a hell of a week but we made it yea we made it  
Yea the bar shutting down but we staying yea we staying

Only got so long till the morning comes  
And life is too short to be wasted

So light me up twist me something good  
Make it strong enough  
Last long enough  
Before the night is up  
Just give me something good  
Pour me all your love  
Make it strong enough  
I'm never coming down  
Make it strong enough  
I'm never coming down

Always say what I want when I'm faded  
And I'm faded  
Put it on play our song till we break it  
Till we break it

Only got so long till the morning comes  
And life is too short to be wasted

So light me up (Light Me Up)  
Twist me something good  
Make it strong enough  
Last long enough  
Before the night is up  
Just give me something good  
Pour me all your love  
Make it strong enough  
I'm never coming down  
Never coming down

Make it strong enough  
Strong Enough (3x)  
Never coming down (5x)  
So light me up twist me something good  
Make it strong enough  
Last long enough  
Before the night is up  
Just give me something good  
Pour me all your love  
Make it strong enough  
I'm never coming down  
Never coming down
