

# Jordan Haj, BY NOW (feat. Emma Smetana)

The hurry  
The money  
My mother  
Your mother

The big hit  
The habit  
Our night calls  
The mornings

You said this city is mean and cold  
I'm suffocating  
I can't breathe at all

At 20 I'm mean and old  
I'm living in a house that ain't no home

So by now...  
Have you met people and had fun?  
If something from the past comes to hunt you down  
Would you let it go  
Or would you run ?

So by now  
Have you changed the colour of your hair ?  
Did you keep your name?  
I remained the same...

That something in the air you're feeling  
That is how your heart is healing  
By now  
By now...

Deux enfants  
Deux pays  
Deux visages  
Deux couleurs

You said this city is mean and cold  
I'm suffocating  
I can't breathe at all

At 20 I'm mean and old  
I'm living in a house that ain't no home

So by now...  
Have you met people and had fun?  
If something from the past comes to hunt you down  
Would you let it go  
Or would you run ?

So by now  
Have you changed the colour of your hair ?  
Did you keep your name?  
I remained the same...

That something in the air you're feeling  
That is how your heart is healing  
By now  
By now...
