

Jordyn Taylor, What's Good

[Verse 1]

Ohh,
It's just another day
Picking up the pieces baby
Trying to find a reason not to go
And give it all away
Cause every time you're missing
Well I'm feeling like im losing a part of me
And I cant remember
Where things went wrong
Cause its been so long and
I cant believe that it's the end
So baby help me understand

[Chorus]

Whats good whats good
With you with you
If im not the one you want
Then I don't want to sit and wonder
Whats good whats good
With you with you
Boy im sick of being lost
And I just wanna know
Whats good whats good
With you.

[Verse 2]

Ohh,
It seemed so meant to be
Til everything got twisted baby
Look at how we've drifted from those days.
But I wont walk away
No I deserve an explanation,
Tell me why you're giving up on
Me cause I cant remember,
Where things went wrong,
Its time to let me know
Cause this aint the way you let love end.
So baby help me understand

[Chorus]

Whats good whats good
With you with you
If im not the one you want
Then I don't want to sit and wonder
Whats good whats good
With you with you
Boy im sick of being lost
And I just wanna know
Whats good whats good
With you

[Verse 3]

Cause its gone too far
Cant you see these scars
They spoke of the loneliness
Got me so confused
Whatd I do to you
To end up in this mess
Nothings wrong nothings wrong
So your telling me
But I can feel the truth
So whats good whats good with you

[Chorus x2]

Whats good whats good
With you with you
If im not the one you want

Then I don't want to sit and wonder
Whats good whats good
With you with you
Boy im sick of being lost
And I just wanna know
Whats good whats good
With you.
