

# Joss Stone, What Were We Thinking

[VERSE]

Try to turn it off  
But it's hard to see  
Through this emptiness  
Slowly breaking me  
Maybe hurt me just a little less  
Then I can start to breathe  
But still your heart is out of reach

[CHORUS]

What were we thinking  
And what will we do now  
Ah ha  
Right now  
Right now  
Right now  
Ooh ooh

[VERSE]

The sun hasn't shined today at all  
A funny thing  
You haven't called  
Tell me why  
Or should I be asking?  
How would I respond to it all  
Times were good  
I wish you were around more  
I can feel you at my door  
But it's not you  
It's someone else  
What can I do  
Ooh, what did we do

[CHORUS]

What were we thinking  
What were we thinking  
What were we thinking  
Right now  
Right now  
Right now

[VERSE]

Try to turn it off  
But it's hard to see  
Through this emptiness  
Slowly breaking me  
Maybe hurt me just a little less  
Then I can start to breathe  
But still your heart is out fo reach

[CHORUS]

What were we thinking  
What can we do now  
Right now  
Right now

[VERSE]

Try to turn it off  
But it's hard to see  
Through this emptiness  
Slowly breaking me  
Maybe hurt me just a little less  
Then I can start to breathe  
But still

I should have known  
It was right in front of me  
Screaming girl just walk away  
See it can't ever be  
Oh, what would we do now  
We carried on making our mistakes  
Thinking our love was free  
Now you've taken part of me  
Right now
