

# Journey, After All These Years

A faded wedding photograph  
You and me in our first dance  
The lives of those  
We lost in once sweet embrace  
Since those days our world has changed  
Our love remains the same  
God knows we've had our share of saving grace  
And I'm proud of all the blessings  
You have given me  
The mountains we have climbed to get this far  
You learn to take the laughter with the tears  
After all these years  
You make it feel brand new  
After the fires that we walked thru  
Against the odds we never lost our faith  
In our hearts we've made our home  
Where our children all have grown  
Precious moments time can not erase  
We've been livin' up and down the gypsy highway  
Seasons that we've learned to share apart  
Somehow in my heart I always keep you near me  
After all these years  
After all these years  
You stood by me  
The days and nights that I was gone  
After all these years  
You sacrificed, believed in me  
And you stood strong  
'Cause with our love there's nothing left to fear  
After all these years  
After all these years  
You stood by me  
The days and nights that I was gone  
After all these years  
You sacrificed, believed in me  
And you stood strong  
'Cause with our love there's nothing left to fear  
After all these years
