

# Journey, The Time

(Schon/Cain/Augeri/Cirimelil)

Woman...there's more to love than meets the eye  
There's more to a sunrise than a simple ray of light  
Moments...pictures frozen deep in time  
A life full of memories that our feelings can't define  
How can you ever put your heart before the hurt  
Use every moment for all it's worth  
Sundown...it's another moonlit sky  
For millions around the world it's just another lonely night  
How long has it been since you felt the love  
You gave up on counting days  
To count the days since you gave up  
Stand in a sun shower...after all it's only rain  
And let it wash away the pain  
All we need is the time  
Love's gonna come around  
All we need is the time  
It's all we need babe  
Time you lost  
Time you found  
Time it makes the world go round  
Time enough to change your mind  
All we need is the time  
It's all we need babe

The long summer nights lasted forever...  
In the twilight they don't seem so long  
But time can't erase every smile on every face...  
Like a thief in the night time is gone

Woman...there's more to love than meets the eye  
There's more to a sunrise than a simple ray of light  
Love's gonna come around  
It's all we need babe  
Time can heal  
Time can mend  
In time you'll even love again  
Time can make it all seem right  
All we need is the time...in your darkest hour  
All we need is the time...oh you need a change  
All we need is the time...time, time, time  
Time can heal...time to mend...time to even love again  
Time where you can make things right  
All we need is the time...love is gonna come around babe  
All we need is the time...oh love is gonna come around...  
All we need is the time...say it again  
Time it heals...time you found...  
Time it makes the world go round  
Time enough to change your mind  
Time you lost  
Time you found  
Time it makes the world go round  
Time is always on my mind  
All we need is the time
