Journey, Troubled Child

(Perry/Schon/Cain)

Sunrise, creepin' in your eyes Cold empty side walks Miles away from trustin' someone Far from giving up Young blood, cry tough Mean street run There's a hunger inside you Desperate rebel runaway Far from giving up

Someday, someway, all very soon You'll end, long nights Chasin' the moon

[Chorus:] War with yourself Makes you feel better Caught behind the lines Troubles child Faith finds a cure It makes you feel better You know you can shine Troubled child

Voices echo, from the past Decisions made for you Trials they made To touch your heart Never found their way

[Chorus]
