

Joy Electric, I Sing Electric

Will you ever hear me?
I'm too tired for sad behavior
Don't fear, don't revere me
They bend back to tax, to cream me
Here I come, the weak receive me

I sing electric
To the Godly collective
I sing electric
The light of God directs it
We'll never go away

Coming to from bee stings
I'll be quiet
Besides, I can't sing
Blink away the fairies
I get wistful when you scare me
Judas winks back to remind me

I sing electric
To the Godly collective
I sing electric
The light of God directs it
We'll never go away

Lowly and poor means we will be sustained in spite of your ways
We'll never go away
