

Joy Electric, The Robot Beat (We're Back)

Synthesizers play
And the mockers will be through pretending
We're back from the grave
We've been cut up, spit out
We're back swinging
We're back with the...

Robot beat
We've been here from the start
With the robot beat
We are the sound of tomorrow

Punk boys make the claim
"This is not my style," is what they all say
Rock rules state the same
(We don't care)
Turn the tape machine up to eleven
We're back with the...

Robot beat
We've been here from the start
With the robot beat
We are the sound of tomorrow

Hey boy, you're to blame
The detractors are the typical ones
We are here to stay
We're the bold, the saved
We are the Christians
We're back with the robot beat
We are the sound of tomorrow
