

# JP Cooper, Call My Name

Trust me  
Ain't got to be lonely  
You ain't got to be lonely  
Don't let it beat you  
So many people just see  
All the parts that are ugly  
And it's bringing you to your knees  
Don't you surrender  
I still remember  
The nights so long  
Lay awake till the morning comes  
Wishing I could just call someone I know  
When you're so far down  
Feels like nobody's reaching out  
Take a hold of these hands right now  
Don't let go

I hear you crying  
Broken like i've been  
I feel your pain  
Just call my name

Darling,  
Next time you're falling  
Don't hide away  
Just call my name

Don't be afraid  
Call my name  
Just Call my name  
Call my name

Can;t sleep  
Only you and your heartbeat  
Hiding under yourbed sheets  
Don't let it beat you  
So many people

Don't know all the power that they hold  
Won;t you let all those chains go  
Don't surrender  
I still remember  
This nights so long  
Lay awake till the morning cmes  
Wishing i could just call someone i know

I hear you crying  
Broken like i've been  
I feel your pain  
Just call my name

Darling,  
Next time you're falling  
Don't hide away  
Just call my name

Don't be afraid  
Call my name  
Just Call my name  
Call my name
