

Judas Priest, Invincible Shield

Judas Priest prezentuje utwór "Invincible Shield" z płyty "Invincible Shield" (premiera 8 marca 2024)

Clad in steel
Raise the barricades
Non shall pass friend or foe

Hold your ground
Pacts are galvanized
Chained by truth blood will flow

Face your fate
Bain or sacrifice
To the hilt stain the sword

Charge your soul
Purge infinity
Clarion's cry, strike the chord

Faith and honour
Hearts are golden

Invincible
Our masses are united
Invincible
Forever and a day
Invincible
Can never be divided
And nothing can stand in our way
Invincible shield

Smash and grab
Let loose infamy
Hit the pit, feel the force

Crushing earth
Shatter disbelief
Petrifyer of course

Sacred sound
Bred to volatize
Devastation supreme

Consecrate
Deep beneath the ground
Excommunicate sin

Praise this power
Strength in union

Invincible
Our masses are united
Invincible
Forever and a day
Invincible
Can never be divided
And nothing can stand in our way
Invincible shield

Crashing the earth, shattering disbelief
Consecrating beneath sacred sound
Scattering stunning, the heathens are running
Destroying the gods that we've crowned
Hearts are golden
Our faith and our honor defends

We raise the invincible shield

Clad in steel
Raise the barricades
Non shall pass friend or foe

Shock and stun
Blessed empery
Nullify or convert

Invincible
Our masses are united
Invincible
For ever and a day
Invincible
Can never be divided
We're invincible

Invincible
Our masses are united
Invincible
For ever and a day
Invincible
Can never be divided
And nothing can stand in our way
Invincible shield
