

Juice WRLD, Cigarettes

Smoke cigarettes, cancer in the chest, like cardiac arrest
I've been feeling stressed tryna find ways to impress her
Showing her that I love, tryna show her an effort
Gotta keep it together

I don't wanna be lonely no more (oh)
I don't wanna be lonely no more (oh)
She picks my heart off of the floor
I'm addicted ya I need me some more
I don't wanna be lonely no more (oh)
I don't wanna be lonely no more (oh)
She picks my heart off of the floor
I'm addicted ya I need me some more

This a love letter that I wrote
She keep me up when I'm feeling low
She's my overdose dose
Being heartbroken is so last year
Having breakdowns and she's wiping my tears
I've been feeling fine ever since she's been mine
In other words yeah, she changed my life
Open up like a book, let her read me
One call away if she ever needs me
If I ever fall apart I know she gon keep me together
Treat me like a promise baby keep me forever

I don't wanna be lonely no more (oh)
I don't wanna be lonely no more (oh)
I'ma meet you back at the chorus
PS, baby girl you're so gorgeous

I don't wanna be lonely no more (oh)
I don't wanna be lonely no more (oh)
She picks my heart off of the floor
I'm addicted ya I need me some more

As I find my way to the bottom of this bottle
She's in my head, please don't get me started
I could talk about her all day, she's on my mind always
As I find my way to the bottom of this bottle
She's in my head, please don't get me started
Thinking bout her all day, she's on my mind always

I don't wanna be lonely no more (oh)
I don't wanna be lonely no more (oh)
Ima meet you back at the chorus
