

Julie Doiron, Grammy

I have a problem
She is not getting better
How I will I know when to leave her

I am so scared of this
I wish she'd get rid of it
Though it doesn't seem like she will soon

And my heart hurts very much
And my head hurts just as much
But I know neither hurts like hers

I go see her now
I hope she is feeling well
My mum told me she got more pills

She is coming home today
I hope she will be to stay
But I know it can only be a while

And my heart hurts very much
And my head hurts just as much
But I know neither hurts like hers
