

Julie Doiron, Too Much

I don't want to make you cry
Today you're not here
And I thought if I ignored you
You would go away
Maybe you love me too much
Maybe I should call a taxi and have him take me to nowhere
Or maybe I should call a taxi and have him take me straight to you
Well me, I've never been ignored like this
About time I dreamed that everything was good
And you were here with me, and everything was good
Maybe I love you too much
(Maybe I love you too much)
Maybe I love you too much
(Maybe I love you too much)
Maybe I love you too much
(Maybe I love you too much)
Maybe I love you too much
