Julie Doiron, Too Much

I don't want to make you cry Today you're not here And I thought if I ignored you You would go away Maybe you love mé too much Maybe I should call a taxi and have him take me to nowhere Or maybe I should call a taxi and have him take me straight to you Well me, I've never been ignored like this About time I dreamed that everything was good And you were here with me, and everything was good Maybe I love you too much (Maybe I love you too much) Maybe I love you too much (Maybe I love you too much) Maybe I love you too much (Maybe I love you too much) Maybe I love you too much
