

Julie & Ludwig, On Again...Off Again (Eurovision

Look at me - I need some attention
Im a girl - of serious intention
Just like a butterfly
My wings can take me high
To touch your piece of sky
Though I can fly away
Play cool, or run away
I choose to hold your love
More than one night!
Youre everything and nothing in one
(What do you mean?)
Our love goes from the North to the South
(I disagree)
I just cant understand anymore
What we have in common
(Chorus)
On again Off again
Like the rhythm of rain
We need to decide
Find an end to this game
Such wonderful times
Many natural highs
Love is a flame that we can never tame
On again- Off again
Why oh why! Cant I live without you?
How oh how! Do I reach inside you?
My love is justified
I simply had enough
I want you by my side
Am I your fantasy?
Mystery? or destiny?
Do you take me for a ride?
Please, tell me now!
Youre the air, youre the love that I breathe
(That sounds so good)
Youre the magic that flows from within
(I feel that too)
We come close then we move far away
Cant we stay together?
(chorus)
Theres a river between us
And I need you to come across
Reach out for my heart
Keep this feeling so alive
Love grows We survive
(chorus)
On again Off again
Like the rhythm of rain
We need to decide
Find an end to this game
Such wonderful times
Many natural highs
Love is a flame that we can never tame
On again- Off again
(final chorus)
Off again On again
Like a flickering flame
That dies in the wind
And lights up again
Such wonderful times
Many natural highs
Love is a flame we can never tame
On again Off again!
