Julie & Ludwig, On Again...Off Again (Eurovision

Look at me - I need some attention

Im a girl - of serious intention

Just like a butterfly

My wings can take me high

To touch your piece of sky

Though I can fly away

Play cool, or run away

I choose to hold your love

More than one night!

Youre everything and nothing in one

(What do you mean?)

Our love goes from the North to the South

(I disagree)

I just cant understand anymore

What we have in common

(Chorus)

Òn again Off again

Like the rhythm of rain

We need to decide

Find an end to this game

Such wonderful times

Many natural highs

Love is a flame that we can never tame

On again- Off again

Why oh why! Cant I live without you?

How oh how! Do I reach inside you?

My love is justified

I simply had enough

I want you by my side

Am I your fantasy?

Mystery? or destiny?

Do you take me for a ride?

Please, tell me now!

Youre the air, youre the love that I breathe

(That sounds so good)

Youre the magic that flows from within

(I feel that too)

We come close then we move far away

Cant we stay together?

(chorus)

Theres a river between us

And I need you to come across

Reach out for my heart

Keep this feeling so alive

Love grows We survive

(chorus)

On again Off again

Like the rhythm of rain

We need to decide

Find an end to this game

Such wonderful times

Many natural highs

Love is a flame that we can never tame

On again- Off again

(final chorus)

Off again On again

Like a flickering flame

That dies in the wind

And lights up again

Such wonderful times

Many natural highs

Love is a flame we can never tame

On again Off again!
