

Julie Ruin, Crochet

You make me wanna go away
You make me wanna go away
You make me wanna go away
You make me wanna crochet
Just another book about women in rock
Just another book about women in rock
Just another book about women in rock
Just another book about women in rock
You make me want to
You make me want to
You make me want to
You make me want to crochet
You killed the thing
You killed the thing
They killed the thing
You killed the thing
You make me want to
You make me want to
You make me want to
Crochet?
