

Justin Bieber, Flatline

Flatline
Flatline
Flatline
Flatline

Lately you've been busy, wondering if you miss me
Why did you go against me? I just wanna know
How come you act so different?
Talk to me I'll listen
All the love I'm giving
Don't act like you don't know

I was out there on the road
Life out of control
She became a victim to my busy schedule
And I know that it's not fair
That don't mean that I don't care
This one's dedicated to the girl out there

Girl you always catch me at the bad time
When I know you probably think it's a lie
I know I told you last time was the last time
How could you pull the plug and let me flatline?
Flatline [x2]
How could you pull the plug and let me flatline?
Cause when I hit you, you don't even reply
How could you pull the plug and let me flatline?

Not breathing, what is it I'm not seeing
Said she's leaving, damn I can't believe it
It's like my heart's bleeding knowing that you don't need me
Shut my heart down, now I don't know what imma do now

I was out there on the road
Life out of control
She became a victim to my busy schedule
And I know that it's not fair
That don't mean that I don't care
This one's dedicated to the girl out there

Girl you always catch me at the bad time
When I know you probably think it's a lie
I know I told you last time was the last time
How could you pull the plug and let me flatline?
Flatline [x2]
How could you pull the plug and let me flatline?
Cause when I hit you, you don't even reply
How could you pull the plug and let me flatline?

Girl you always catch me at the bad time [x2]
I know I told you last time was the last time [x2]
How could you pull the plug and let me flatline? (Flatline)

Girl you always catch me at the bad time
When I know you probably think it's a lie
I know I told you last time was the last time
How could you pull the plug and let me flatline?
Flatline [x2]
How could you pull the plug and let me flatline?
Cause when I hit you, you don't even reply
How could you pull the plug and let me flatline?
