

# Justin Bieber, You Want Me

It's Justin  
Bieber

I could take you to a new world  
Take your problems away  
Don't know what you wanna do girl  
Just come right this way

I don't never need a new girl  
'Cause you're here to stay  
Let me show you what I do girl  
And you'll never leave

You want me, girl you want you want me  
You want me, you want me  
Girl you you you want me  
Right? Right? Right? Right?  
Girl you know you want me, right?

And you said that you love me  
Yea, I said that I love you too  
Did you know that you're lovely?  
Flowers for nothing, just for you

You know I got you, we share the whole world things  
You know I got you, won't you come and be my girl?

'Cause you're scared to fall but you must spread your wings  
You know it's hard to fly when you won't try new things  
And I'mma be the one to make you smile for a minute  
Put your head down, let it down for a minute

Baby, maybe this sounds crazy  
Been thinking 'bout you lately  
I just need, I just need to save me  
Yea, I could take you to a new world  
Take your problems away  
Doing what you wanna do girl  
Just come right this way

I don't never need a new girl  
'Cause you're here to stay  
Let me show you what I do girl  
And you'll never leave

You want me, girl you want you want me  
You want me, you want me  
Girl you you you want me  
Right? Right? Right? Right?  
Girl you know you want me, right?

I could take you to a new world  
Take your problems away  
Don't know what you wanna do girl  
Just come right this way

I don't never need a new girl  
'Cause you're here to stay  
Let me show you what I do girl  
And you'll never leave

You want me, girl you want you want me  
You want me, you want me  
Girl you you you want me

Right? Right? Right? Right?  
Girl you know you want me, right?
