

# Justin King, Goodbye, Goodbye

Turn left, keep up, go right  
I'm a big catastrophe, burning poetry  
Do good, act right, tin man  
You should learn from history  
Love and sympathy  
Systematic crash erratic  
Hearts are made of ones and zeros  
Im coming to life  
Talking to light and I share this skin  
Im leaving tonight  
Goodbye goodbye, to all lies  
Blank face, dont care, no pulse  
All the medication's gone  
No more miracles  
Dry tears, no fears, start fights yeah  
I feel just fine if my  
Calculations right  
Stand tall, fade in, climb high  
Nothings wrong, but nothings right  
Blind with open eyes  
Systematic crash erratic  
Hearts are made of ones and zeros  
Im coming to life  
Talking to light and I share this skin  
Im leaving tonight  
Goodbye, goodbye, to all lies  
Im coming to life  
Talking to light, and I share this skin  
Im leaving tonight  
Goodbye Goodbye to all lies
