

# Justin Timberlake, Flame

Flame"

Love me 'til I die, you'd love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, hey  
Remember, 'member, 'member when you said  
You'd love me 'til I die, you'd love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, look

Do you remember  
All the promises that we made?  
'Cause I remember  
Feels like it was just the other day  
What to do when love goes wrong?  
What do you say? Hey  
All these years and I can still feel the flame

Who were you running from?  
What could I do to make you stay?  
How did you just forget me?  
What was the thing that made it change?  
All the things that could've been, but I let you get away  
Now we're way too late and that's on me

But who would've known?  
Over a thousand miles to end up at the end of the road  
Watching embers fade away  
Ashes are what's left of this love's remains  
Went to the end of the earth, it still didn't work and now this  
Is the night that the flame runs out

Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah

Ooh, try not to care but it's too much  
Never thought I would ever lose ya  
You chose a road that was one way  
And all I ever did was choose us  
That day you looked right into my eyes  
Said you could never tell a lie  
Remember, 'member, 'member when you said  
You'd love me 'til I die, you'd love me 'til I die

Who were you running from?  
What could I do to make you stay?  
And how did you just forget me?  
What was the thing that made it change?  
All the things that could've been is driving me insane  
Now we're way too late and that's on me

But who would've known?  
Over a thousand miles to end up at the end of the road  
Watching embers fade away  
Ashes are what's left of this love's remains  
Went to the end of the earth, it still didn't work and now this  
Is the night that the flame runs out

Burnt memories of you and me were all we could take  
I guess that's what happens when love goes down in flames  
How'd you end up being the one that got away?  
When you're the one that said we'd never lose forever

'Cause I remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah (Hey)  
Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah (Die, ooh)  
Remember, 'member, 'member when you said  
You'd love me 'til I die, yeah

But who would've known?  
Over a thousand miles to end up at the end of the road  
Watching embers fade away  
Ashes are what's left of this love's remains  
Went to the end of the earth, it still didn't work and now this  
Is the night that the flame runs out

Went to the end of the earth, it still didn't work and now this  
Is the night that the flame runs out

Remember, 'member, 'member when you said  
You'd love me 'til I die, you'd love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, you'd love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, you'd love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, look

I remember you and me talking 'bout all the things, all the dreams, and how we'd never give up  
How did all the things that we promised, that we set in stone  
Go poof and disappear in the dust?  
I got receipts, you got receipts  
It's just all proof that we were never made for this love  
And when you really look back, it's the wrong girl at the worst time and some bad luck  
What the fuck?

Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah  
Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah (What the fuck?)  
Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah (Chalk it up)  
Remember, 'member, 'member when you said  
You'd love me 'til I die, love me, love me 'til I die, yeah (What the fuck?)
