

# Justin Timberlake, Love & War

Still make love while we make war

Like a spark on the Fourth of July  
Yeah, sparks fly when your heart's so close to mine

So  
Even when we are at battle  
It doesn't even matter  
'Cause I'd fall on the sword for your life  
So  
Don't make me stay 'cause I will (Stay 'cause I will)  
I don't mind telling you just how I feel tonight (Just how I feel)

Baby, it's you  
You're the only one that I'll fight for  
And even if we lose  
We still make love while we make war  
We still make love while we make war  
Hmm  
Still make love while we make

I get strength from the tears in your eyes  
'Cause on the inside, it's like the darkness that brings us alive

So  
If they ever come for the castle  
It wouldn't even matter  
'Cause I'd fall on it all for your life  
So  
Don't make me stay 'cause I will (Stay 'cause I will)  
I don't mind telling you just how I feel tonight (Just how I feel)

Baby, it's you  
You're the only one that I'll fight for  
And even if we lose  
We still make love while we make war  
We still make love while we make war  
Still make love while we make, make love while we make, make love while we make war  
Still make love while we make, make love while we make war

So  
Ask me to stay and I will (Stay and I will)  
'Cause I don't mind telling you just how I feel tonight, yeah (Just how I feel)

Baby, it's you  
You're the only one that I'll fight for (It's you, baby)  
And even if we lose  
We still make love while we make war (It's you, baby)  
We still make love while we make war

Baby, it's you (Still make love while we make, make love while we make, make love while we make)  
You're the only one that I'll fight for (Still make love while we make, make love while we make, make love while we make)  
It's you, baby  
And even if we lose (Still make love while we make, make love while we make, make love while we make)  
We still make love while we make war

Mm  
We still make love while we make war
