

# Justin Timberlake, Paradise (feat. 'N Sync)

Searched across the endless skies  
Whoever thought I'd find someone like you  
And even the test of time  
No, nothing could divide  
What's meant for you and I

Oh, we've been down a long, long road, now look at where we are  
We were chasing after hopes and dreams, and we're still under the stars  
And all this time, I've always wondered if it would feel the same  
As it did when we were young and not afraid

'Cause I've waited  
I've been waiting forever  
Right here for this moment  
Between you and I  
Everything is happening  
And it's just what I imagined  
I imagined it would feel like  
Paradise

I sailed across the endless sea  
Just so I could be  
Right here next to you (Right here next to you)  
Right here next to you  
Ooh, oh, 'cause when your heart's close to mine  
I know God's plan is divine  
And it's meant  
For you and I, and I know

We've been down a long, long road, now we're looking where we are  
We were chasing after hopes and dreams, and we're still under the stars  
And all this time, I've always wondered if it would feel the same  
As it did when we were young and not afraid

'Cause I waited  
I've been waiting forever  
Right here for this moment  
Between you and I  
Everything is happening  
And it's just what I imagined  
I imagined it would feel like  
Paradise

I, you know I'd give anything to be your only one (Only one)  
Just look at us, we're right here where we belong  
And it was written  
'Cause the stars said  
I was yours and  
You would be mine all along

And I don't mind waiting  
I've been waiting forever (I)  
Right here for this moment (This moment)  
Between you and I (Between you and I, and everything)  
Everything is happening  
And it's just what I imagined  
I imagined it would feel like

'Cause I waited  
I've been waiting forever  
Right here for this moment  
Between you and I (Between you and I)  
Everything is happening (Everything is happening)  
And it's just what I imagined

I imagined it would feel like  
Paradise

Paradise  
Paradise
