met you out on Brodway  
On the hottest night in town  
we arrived solo

but we were being chasing around  
saw we being caught up by some guy you used to know  
stepped in between the both of ya'll  
said: I'm leaving, do you wanna go?"

cause

I'll be the light when you can't see  
I'll be the wood when you need heat  
I'll be generator  
turn me on when you need electricity  
some shit's about to go down  
I'll be the one with the level head  
the world can end now  
baby, we'll be living in The WALKING DEAD

cause I got supplies

I don't know if you remember this  
but I was out of town  
flew in on a 3 am  
just to show up and hear your sounds
