Justin Timberlake, Take Away Your Love (Why, V

You're still captivating even though it's been so long You used to love me tell me baby what went wrong 'Cause now you march to the beat of a different song

Try to understand that we needed space But everywhere I turn I see your face I've been waiting for you to come home 'Cause I don't want to be alone I still love you

Why did you take away your love When did you think to just give up How am I supposed to carry on now Without you You are my light

I have changed girl since I last saw you When you left you don't know what you put me through But my heart's still racing just being next to you

I can't escape the magic in your eyes Is there a way to make you realize There's no one more special to my heart But you want us to be apart I still love you

Why did you take away your love, baby When did you think to just give up, yea

How am I supposed to carry on now Without you

You were my world
You meant everything to me
You're the air I breathe
The song I sing
You were my queen, I was your king
But if we can try to work it
We'll show the world what love is about
Baby come on cause I can't take no more
Of this loneliness
And emptiness

Why did you take away your love (Take away your love)
When did you think to just give up (Oh...)
How am I supposed to carry on now Without you

Why did you take away your love When did you think to just give up How am I supposed to carry on Without you You are my You are my light
