

# Justin Timberlake, Tunnel Vision

I know you like it, I know you like it /8x

Don't know why but girl  
I'm feeling close to you, maybe this ocean view  
I'm so emotional, and all these stars been dancing on my head  
Too long, too long, too long  
I wrote a song for you, I wanna sing to you  
But every time I'm close to you, the words wanna come out, but I forget  
It's so strong, it's so strong, it's so strong

Didn't I seem like I'm catching something. That's because it's true  
I can't deny it, and I won't try it but I think that you know  
I look around and everything I see is beautiful 'cause all I see is you  
And I can't deny it and I stand by it, and I won't hide it anymore  
A crowded room anywhere, a million people around, all I see is you  
And that everything just disappears, disappears, disappears, disappears  
Yeah a million people in a crowded room  
But my camera lenses only been set to zoom  
And it all becomes so clear, becomes so clear, becomes so clear

I got that tunnel vision for you /3x  
I got that tunnel vision, I only see you  
/2x

Now that I know the truth, what am I supposed to do?  
Changing up and breaking all my rules ever since we met  
I'm so gone, I'm so gone, I'm so gone  
Just like a movie shoot, I'm zooming in on you  
Everything is extra, in the background, just fades into the set  
As we ride off into the sun

Didn't I seem like I'm catching something. That's because it's true  
I can't deny it, and I won't try it but I think that you know  
I look around and everything I see is beautiful 'cause all I see is you  
And I can't deny it and I stand by it, and I won't hide it anymore  
A crowded room anywhere, a million people around, all I see is you  
That everything just disappears, disappears, disappears, disappears  
Yeah a million people in a crowded room  
But my camera lenses only been set to zoom  
And it all becomes so clear, becomes so clear, becomes so clear

I got that tunnel vision for you /3x  
I got that tunnel vision, I only see you  
/2x

Zoom zoom zoom....  
Zoom zoom zoom in on you  
I only see you!  
Zoom zoom zoom....  
Zoom zoom zoom in on you  
I only see you!

I know you like it, I know you like it /5x

A crowded room anywhere, a million people around, all I see is you  
That everything just disappears, disappears, disappears, disappears  
Yeah a million people in a crowded room  
But my camera lenses only been set to zoom  
And it all becomes so clear, becomes so clear, becomes so clear

I got that tunnel vision for you /3x  
I got that tunnel vision, I only see you  
/2x

I know you like it, I know you like it /2x

I only see you

I know you like it, I know you like it /3x

I only see you, yeah.
