

Justincase, Traffic Light

I was guessing what it feels like
To have a girl that wants me
Say exactly what she feels like
So that I could see

[Chorus:]
This traffic light I'm stopped at
Tells me when to go
With all of these mixed signals
I am feeling overthrown

You say you want to take a rest
Just a little break
That would be okay with me
If my heart wasn't at the stake

[Chorus]
How will I ever conquer this mountain
Without you with me by my side
How will I ever find the right time
To pull you close and make you mine

[Chorus]
You wanted me to be flawless
Your knight in shining armor
My suits a little dirty
And this disease I can't cure

[Chorus]
