## Justincase, Traffic Light

I was guessing what it feels like To have a girl that wants me Say exactly what she feels like So that I could see

[Chorus:]
This traffic light I'm stopped at
Tells me when to go
With all of these mixed signals
I am feeling overthrown

You say you want to take a rest Just a little break That would be okay with me If my heart wasn't at the stake

## [Chorus]

How will I ever conquer this mountain Without you with me by my side How will I ever find the right time To pull you close and make you mine

## [Chorus]

You wanted me to be flawless Your knight in shining armor My suits a little dirty And this disease I can't cure

[Chorus]
