

Kaiser Chiefs, Girl Of My Age

You were the one in the back in the map
I cracked you a smile and you cracked us one back
What are you gonna say
Are you turning away
I see you here everyday
Maybe we could be friends

You were the one with the holes in your shoes
If this isn't over it's over to you
I did all that I can
Now it's out of my hands
Do you have any plans
To go to sleep with

Cause I've it happen
On the television
But it doesn'y happen
Least not to you and me

I was looking forward to a night on the town
With a girl of my age it was nice to be round
I was looking forward to a night on the town
With a girl of my age it was nice to be round

But it didn't happen like that
Cause she never called me back
It doesn't happen like that
And they never tell you that

I was the one in the back in the map
Sat by the window you looked at me back
You've got nothing to say
So you bumped it away
I see you here everyday
So maybe we should be friends

I was the one with the map of the world
The pages are faded and the edges are curled
Take it out of the draw
Pin it up to the door
I've got the itch to explore
I'll see you later

And I've seen it happen
On the television
But it doesn't happen
To the likes of you and me

I was looking forward to a night on the town
With a girl of my age it was nice to be round
I was looking forward to a night on the town
With a girl of my age it was nice to be round

But it didn't happen like that
Cause she never phoned me back
It doesn't happen like that
And they never tell you that

But it didn't happen like that
Cause she never phoned me back

I was looking forward to a night on the town
With a girl of my age it was nice to be round
I was looking forward to a night on the town

With a girl of my age it was nice to be round
