

Kaiser Chiefs, Less Is More

Hey now, what you do that for,
Keep your head down, told you less is more,
Follow me and you...
End up at my house too...

She said whoa there, why d'you go so fast?
You gotta slow down, wanna make it last,
Follow back to mine, thats where we'll go
And we can take your time, i've heard it before

She said 'Hey Boy, i really dig your band,
Cause you play loud, where d'you get that sound?'
I follow all the trends, I follow the funk
So come and meet my friends, gotta meet my friends!

I said 'Hey man, now you've grown your hair,
Like a best friend, you look quite the flair'
With your t-shirts on, got all the shirts
With all the right slogans.

Hey now, what you do that for,
Keep your head down, told you less is more,
Follow me down to...
End up at my house too...

I said hey now, what you do to me?
So don't try hard, you're accusing me,
Follow me, i know...
A better place to go...

I told you less is more so
Slow down, it's better also
To stop, to smell the flowers,
And interfere for hours, at least
you do it weekly, you lose
yourself completely, the odds
are better also, i told
you Less is More so.
