

# Kaledon, The Calm Before the Storm

My life started in the midland  
And was pretty normal  
My father was a merchant  
With a little parlor

For the daily needs  
A lot of people coming  
And here I met my friend  
The greatest friend of mine  
That I might have

You came into my life  
As a friend of mine  
You are my strength, my power and my force  
...but all this will change

After the new king's election  
Many things are changing  
I need a new job  
To improve my life

The greatest friend of mine  
Recommended me  
In the mighty castle  
For the hostler job  
Finally I'm here

The calm before the storm

You came into my life  
As a friend of mine  
You are my strength, my power and my force  
...but all this will change
